Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 3 - 6, 8 - 11, and 13 - 15 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Schutz (142).

The particular dimensions claimed would have been obvious to one of ordinary skill in the construction of the device of Schutz (142), motivated by the intended use. The employment of a vent valve in the vent hole of the device of Schutz (142) would have been obvious to one of ordinary skill in the art. The employment of a cover over the vent valve and vent outlet would have been obvious to one of ordinary skill in the art, motivated by the wide acceptance of such in the field.

3. Claims 2, 7, and 12 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Schutz (142) as applied to claims 1, 3 - 6, 8 - 11, and 13 - 15 above, and further in view of Dubois, et. al.

It would have been obvious to one of ordinary skill in the art to have employed the localized recess teaching set forth in Dubois, et. al. in the construction of the device of Schutz (142), producing no new and unobvious results.

4. Claims 5 and 6 - 10 are finally rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5, line 1: " the handle " has no proper antecedent basis.

Claim 6, line 7: " the second fitting " has no proper antecedent basis.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

The Declaration submitted on 11/6/02 has been considered.
